

Blueskin Resilient Communities Trust

## Blueskin Energy Project

**When:** 7pm, Wednesday 4th December 2013

**Where:** Waitati Hall, Waitati

**Who:** A project of the Blueskin Resilient Communities Trust (BRCT)

**What:** We began with an **idea**. We have built **knowledge** about **small-scalae wind**, accumulated **infrastructure** and skills, and now need to create the **development entity**. There's more at stake here than just a small wind development at **Blueskin Bay**; we're also considering what an electricity system that is based **100% on renewables** would look like and how it will happen. Come along and find out about progress on the proposed Blueskin Wind Cluster and **contribute your ideas** to the next stage.

# Wind Cluster Update
